

FPMWF sim (First Person Modern Warfare sim)

Have you always wanted to command the world's armed forces from 1950-today from a First Person View?

Well, with this free sim, you can!!

FPMWF sim, in a more in depth look.

- Well, if you are interested in the world armed forces, this free sim is ideal for you!
- FPMWF sim will probably be the most immersive open world military simulator on steam!
- This sim will give you chance to command the worlds armed forces, from a first person perspective.
- From commanding massive task forces of the US navy in the atlantic ocean during an exercise, to taking delivery of the new tornado f3 in the RAF during 1984, to even deploying your troops to the gulf during 1991, all major conflicts from the 1950s through to today will be covered.

Why is the sim free?

- While you may be thinking, why is this sim going to be free? I planned the sim to be free like DCS, so you can command your forces without paying a penny for the sim itself!!

Features

- Air bases.
- Aircraft.
- Paratroopers.
- A mission maker, so you can make your own missions, be it during peace time or during a conflict.
- Training exercises/sorties.
